The Mayor's Address.

Gentlemen of the City Council:—

It is with some embarrassment that I address you, knowing as I do, that as Mayor of this City I follow in the footsteps of a polished gentleman, an orator, politician and a statesman.

I hope I shall be pardoned the digression if I say, that it is a matter of great satisfaction to me that we have, a part of us at least, been chosen to our respective offices by a practically unanimous vote, or certainly without an organized opposition. This I think should stimulate us to greater effort and a more determined purpose to promote the interests of our City in every department which may come under our supervision.

I see before me a City council composed of men of good sense, sound judgment and business ability, and to you gentlemen, I appeal for support and encouragement for the coming year, and in return will assure you one and all of my most hearty support and co-operation in every effort which you may undertake for the advancement of the business interests or moral welfare of the City.

Before making recommendations, I want to call your attention to the financial condition of the City. There are now outstanding:

Bonds to the amount of	\$230,000.00
Interest bearing notes,	20,000.00

Total interest bearing debt,	<div style="border-top: 1px solid black; display: inline-block; width: 100px;"></div> \$250,000.00
------------------------------------	--

Coupons unpaid,	2,253.00
High school undrawn balance,	162.63
Wiscasset R. R., undrawn balance,	8,000.00

Amounting to \$260,415.63

This however, is not the actual indebtedness as there is in the hands of the City Treasurer:

Cash to the amount of ..	\$ 9,127.72
Uncollected taxes,	27,180.49
Tax titles held by City,	293.99
Stock in liquor agency,	2,275.60

Total, \$ 38,877.80

Leaves actual debt of City, \$221,537.83

Of this bonded debt \$10,000 becomes due annually for the next eight years and must be provided for, either by taxation or re-issue of bonds.

In 1909, \$85,000 will become due.

The interest on the bonded debt alone for the coming year will be \$9,100, which added to the \$10,000 which becomes due, makes a total of \$19,100, which must be provided for, a yearly expenditure sufficient to build a good city hall in three years, a high school building in two years, a grammar school building in one year, or a central fire station in the same time.

I have heard prominent citizens say, when they wanted some large expenditure of the City funds, that a municipal debt was a blessing, but I regard it as a curse, and recommend the payment of the \$10,000 which becomes due this year, and believe it can be done without increasing the tax rate.

I also recommend the continuance of the paving on Main street past the Bay View Hotel, also that a small amount of macadam road be built.

I am aware if we are to pay any of the bonded debt, we

must cut our permanent improvements down to a very small figure, and will not therefore occupy your valuable time in enumerating the many needed improvements, which we cannot possibly have.

I think it better to discuss the needs of the various departments at a later date, when we have had more time to consult with the heads of each.

MARTIN BLAISDELL, Mayor.

City Assessors' Report.

Waterville, Me., January 31, 1902.

To the Honorable, the City Council:

We, the undersigned, City Assessors for the year 1901, respectfully report that in accordance with an order of your honorable body dated June 6th, 1901, and numbered fifty-eight (No. 58), we committed on June 15th to F. A. Knauff, Collector, for collection, lists of taxes on the polls and estates subject to assessment for the year beginning April first, 1901, amounting in the aggregate to \$126,916.30.

On real estates valued at \$4,191,325, at 23 1-2 mills, \$98,496.14

On personal estates valued at \$892,007, at 23 1-2 mills, 20,962.16

On 2,486 polls at \$3.00.....	7,458.00
-------------------------------	----------

\$126,916.30

For State Tax, \$ 15,581.03

For County Tax,	5,506.34
-----------------------	----------

For Municipal Appropriation, 104,016.25

For Overlayings, I,812.68

Fire Department.

Office of Chief Engineer, Waterville, Feb. 1, 1902.

To His Honor, the Mayor, and the City Council of Waterville:

Gentlemen:—I have the honor to herewith submit the annual report of the Fire Department for the year ending Jan. 31, 1902, including the force of the Department, with a record of all alarms of fire which have been responded to by the Department, together with the insurance paid on same and the cause, so far as I can learn in regard to these facts, and such other matters as pertain to the Department.

Personnel.

Board of Engineers. George F. Davies, W. H. Savage. William Ranco.

Steamer Company No. 1. Geo. L. Learned, Engineer.

Hose Company No. 1. Hugh Davison, Captain; company of 11 men.

Hose Company No. 2. C. C. Dow, Captain; company of 9 men.

Hose Company No. 3. John Roderick, Captain, company of 9 men.

Hose Company No. 4. C. E. Bushey, Captain; company of 9 men.

Hook and Ladder Company No. 1. Fred H. Thomas, Captain; company of 14 men.

Apparatus.

The apparatus consists of one steam fire engine; one two-horse hose wagon; one two-horse hook and ladder truck; two single-horse wagons; one hand reel; three single-horse hose sleds for winter use, and one supply wagon.

Horses.

The pair of horses attached to Hose No. 1, purchased a year and a half ago, make a most excellent team.

The pair attached to Hook and Ladder No. 1 are in fine condition and good for a long time yet.

The above teams have been worked on the streets alternately, the past season, and have earned \$410.37, which has been credited to the Fire Department. See financial report.

Same arrangements as in previous years have been continued whereby horses are furnished to draw Hose No. 2 and 4, from nearby stables.

Hose.

The Department at present has 6800 feet of 2 1-2 inch rubber-lined cotton hose, 1000 feet of which is new. Four hundred (400) feet of old hose, unsuitable for fire service, has been turned over to the Sewer Department.

Hydrants and Boxes.

There are within the limits of the city sixty-nine hydrants for fire purposes, two (2) of which have been located within the past season.

There are also ten (10) private hydrants.

The Gamwell Fire Alarm Boxes number twenty-five (25). No new boxes have been added within the past year.

Fire Alarm Telegraph.

The past year the fire alarm system has been mainly under the charge and care of the Department Committee and the City Electrician. At the present time the Gamwell and the auxiliary are in fine working order. The auxiliary, that most valuable adjunct to the department, has been most unsatisfactory until very recently. It is now all built over and promises to be a practical and efficient individual fire alarm.

Improvements.

There has been added to the department the past year

one thousand (1000) feet of new hose, one new 50-ft. rope hoist extension ladder, and many minor improvements.

Interior of Hose 1 and Hook and Ladder houses have been painted and papered; new sleeping-room arrangements made; a door cut, connecting the two houses, making more suitable and sanitary quarters for the drivers and the members who sleep there; Hose No. 3 hall has also been papered and slight repairs made.

The fire alarm system has been very materially strengthened and quite an expense has attended it.

Recommendations.

I recommend that Steamer No. 1 be thoroughly overhauled and put in condition for service.

That a suitable lot be purchased this year for the erection of a new central fire station.

That Hose House No. 2 be raised and a new floor laid and generally repaired.

That Hose House No. 4 be leveled up and slight repairs made.

That a new hose sled be purchased.

That four chemicals be provided for Hose No. 3 and No. 4.

That at least five hundred (500) feet of new hose be purchased this season.

That seven (7) hydrants be raised up to a proper position.

It is with a feeling of deep sadness that I add to this report the account of the tragic death of George H. Proctor, the true and faithful driver of Hose No. 1, whose life in the prime of manhood was crushed out by the runaway team which he was in vain trying to hold. The sad event cast a gloom over the entire department. A favorite with officers and men alike, he is mourned as a loyal friend and brother.

His funeral was attended by all the members of the department. The team which he had so long driven was loaded with flowers placed there by loving hands as a tribute to his worth and character. Resolutions were passed and letters of sympathy were sent to his bereaved family.

All of which is respectfully submitted,

GEORGE F. DAVIES, *Chief Engineer.*

Report of City Marshal.

To the Honorable Mayor and Board of Aldermen:

I herewith submit to your honorable board my report of the Police Department for the year ending, January 31, 1902

Roster of the Force.

City Marshal—Chas. H. Farrington.

Deputy Marshal—J. F. Woodbury.

Patrolmen—Geo. Martin, Joseph Libby, Chas. Butler.

Sunday Police—Philip Proulx, J. F. Woodbury.

Special Police—Frank Barrows, Napoleon Roderick, Harry Hinds, John Roderick, Chas. Cabana, Fred Chesley, Philip Proulx, Jos. Godreau, Bert Chamberlain, Roscoe Hanson, Geo. Rainey, Thomas King, Truman Taylor, James King, Edgar Brown, Ellery Brann, Walter Berry, Chas. Tyler, Chas. Lashus, David Vigue.

The number of arrests with the offense charged against them are covered under the following statistics:

Whole number of arrests for the year,	264
C. H. Farrington,	69
J. F. Woodbury,	75
Geo. Martin,	48
Jos. Libby,	36
Thos. King,	2

Vagrancy,	4
Assault on cars,	1
Riding bicycle on walk,	1
Cheating,	1
	— 264

116 arrested for drunkenness out of 214 are non-residents of Waterville.

The disposition of the cases coming before the Court was as follows:

Committed to jail,	76
Paid fine and costs,	119
Appealed,	14
Discharged,	2
Paid the costs,	40
Suspended sentence,	5
Probation,	7
Settled between parties,	2
Insane Hospital,	2
Reform school,	1

Miscellaneous matters have come into the work of the Police Department as follows:

Stray teams cared for, 14.

Stores and buildings found open, 29.

Dangerous places in street reported by Police, 11.

Bicycles found and returned to owners, 18.

Fire alarms turned in by Police, 2.

Fires for the year, 44, at which there has always been a police officer.

Goods to the value of \$186.00 recovered and returned to owner.

We have had 164 lodgers at the station during the year.

Arrested two men for out-of-town officers.

Lost children found and returned to parents, 5.

Recommendations.

I would recommend the appointment of two regular police to do regular duty. The growth of the city and the large number of strangers coming to the city every day make it impossible to give the protection needed. Much more work and a great deal better protection can be given the residential portion of the city. As it is now, if the Marshal is called off the street in the forenoon for an hour, as the case is often, there is no one left in case of need. We have the same number of police we had when the city was only about half as large.

This has been an unusual year in the Police Department. Starting with the railroad strike, two circuses, laying the corner-stone of City Hall, Firemen's muster, and the two weeks during the high water when all the mills were shut down—all needed police.

Amount appropriated,\$4,000.00

Amount other sources, 42.00

\$4,042.00

Amount of pay-roll,4,245.11

Overdrawn, \$203.11

Conclusion.

In closing my report I extend to His Honor, the Mayor, and the Committee on Police, and also each member of the City Government, my appreciation of their respect and support on all matters brought to their attention.

To Judge Shaw of the Municipal Court, for his advice and the courteous manner in which I have been treated, and to the City Solicitor for his help, to the Deputy Marshal and all of the Police for their attention to business and their willingness to assist me day or night, to all these I wish to tender thanks for the many kindnesses shown me.

All of which is respectfully submitted,

CHAS. H. FARRINGTON, *City Marshal.*

February 1, 1902.

Superintendent of Schools.

Waterville, February 1, 1902.

To the Honorable Mayor and City Council of the City of Waterville:

I herewith submit the financial report of the department of public schools of this City, for the year ending Jan. 31, 1902.

COMMON SCHOOLS.

Resources.

Appropriation,	\$15,500.00	
Other sources,	8,733.23	
Overdraft,	350.40	\$ 24,583.63

Expenditures.

Salaries of Teachers and Officers,	\$16,103.92	
Text Books,	376.01	
Janitors,	1,785.08	
Fuel,	1,483.10	
Miscellaneous,	942.23	
Repairs,	2,261.93	
Supplies,	742.59	
Conveying pupils,	702.00	
Cleaning and washing,	186.77	
		\$24,583.63

The overdraft in the Common School account was occasion-

ed by the unexpectedly large expenditure in repairing and remodeling the Western Avenue building, the structure being practically rebuilt. In its present form it is a convenient and comfortable four-room building, supplied with entirely new and modern heating, ventilating and sanitary equipment. The cost of remodeling this building swelled the repairs account to \$2,261.93, while the appropriation available for this account was only \$1,200. But the new building—for it is practically that—now houses in comfort, the third largest school in the City.

Report of City Solicitor.

To the Honorable Mayor and City Council

I herewith submit the following report for the municipal year ending February 1, 1902:

The only suit, that of George G. Adams vs. City of Waterville, which was pending at the beginning of the municipal year was decided against the City early in the year, and the City paid the amount of the execution.

There has been only one suit brought against the city during the past year, that of Mrs. Marion Cyr, who claims damages for an injury received by reason of a defect in the sidewalk (as she claims) and this is the only case now pending.

Written opinions have been furnished the City Government in regard to the claim of Mrs. Cyr and in regard to the claim of Mrs. Scribner.

Numerous consultations have been given the heads of the different departments. This has been an exceptionally busy year for the City Solicitor, as many questions have been brought before him in relation to the new City Building and also in regard to the electric lighting contracts.

I should say that there has been more than two hundred consultations the past year.

Respectfully submitted,

DANA P. FOSTER, *City Solicitor.*

Report of Board of Health.

To the Honorable Mayor and City Council:

The Board of Health beg leave to submit for your consideration the following report:

During the year the members have responded to 130 calls to remove public nuisances, all of which have either been removed or put in a much better condition.

The sewerage system needs extension, and a large appropriation will be necessary the coming year for this purpose.

We advise that a practical plumber be appointed as sanitary inspector to act in conjunction with the Board of Health, and that every job of plumbing be thoroughly inspected by him, and that any one who desires to carry on the business of plumbing in the city must first receive a license from the Board of Health.

During the year there have been reported to the Board the following number of contagious diseases:

Small Pox,	1
Diphtheria,	9
Scarlet fever,	14
Typhoid fever,	56

There doubtless have been many more cases of scarlet fever in the City than the above report shows, as some of our physicians do not seem to see the necessity of reporting cases, mild in character. But as a mild case is just as apt to convey the disease as the most severe, we urgently request all physicians of the City to be a little more particular about reporting their mild cases in the future.

We recommend that the municipal officers provide a suitable building to be used as a small pox hospital if we should have an outbreak of that disease in the future.

We think that the City should adopt some rules and regulations regarding the sale of milk and give the Milk Inspector power to enforce them.

Respectfully submitted,

J. F. ELDEN,

A. JOLLY, D. V. S.,

L. G. BUNKER, M. D., Sec'y.

Milk Inspector's Report.

Waterville, Me., Feby. 1, 1902.

To the Honorable Mayor and Board of Aldermen of the City of Waterville:

Gentlemen:—Herewith you will please find my report as Milk Inspector for the year ending Jany 31, 1902.

Sixty-five persons have registered with me as selling milk in the City of Waterville.

The law requires that milk offered for sale shall contain at least 3 per cent of butter fat. I have tested many samples taken from milk carts on the Streets and from stores where it has been kept for sale. Of the milk taken from carts, two showed a percentage of butter fat of 3.4 per cent and 3.6 per cent which was the lowest found. The others varied from 4 per cent to 6 per cent of butter fat.

Of the samples taken from stores there were two which showed less than 3 per cent of butter fat, but in both cases I was satisfied that the deficiency was caused by the fact that most of the milk had been sold unstirred, leaving the remainder of poor quality.

I have examined, by request, several samples of milk, and found them uniformly of high standard.

In conclusion I would say that I have found the milk sold in the City of Waterville to be of a high degree of excellence.

Respectfully submitted,

PHILIP H. PLAISTED, *Milk Inspector.*

Street Department.

To the Honorable Mayor and City Council of the City of Waterville:

Gentlemen:—I herewith submit my report as Commissioner of Streets and Sewers for the year ending January 31, 1902.

The principal expenditures in this department during the year have been as follows:

Snow bills and clearing Streets for February,	
March and April amounted to	\$ 4,160.00
Snow bills for November, December and January	875.00

Cedar Bridge has been repaired, a new abutment having been built, with new stringers, and partly newly planked; the approach filled and fenced; taking 3500 feet of lumber.

A log culvert has been put in on Western Avenue and newly planked; taking 1400 feet of lumber.

Three new log culverts have been built on the Trafton road and a small water-way near Joseph Ronco's; also a new log culvert on the "8 Rod Road," taking in all 4900 feet of logs and planks.

The Waterville end of the Dow Davis Bridge has been newly planked and railed; taking 3000 feet of lumber.

Seventy-one new driveways have been put in; twelve have been repaired. Seven bridges have been repaired and partly newly planked.

Six new cross-walks have been put in:

One on Pleasant St., opposite C. Clukey's.

One on corner Winter and Dalton Sts.

One on Bridge St., by grist mill.

One on Sherwin St., at corner Sherwin and Summer Sts.

One across Winter St., at the Judkins place.

One across Summer St., at Gray St.

The following streets and roads have been graveled:

Ticonic St.,	700 ft.
College Ave.,	1260 ft.
School St.,	610 ft.
Western Ave.,	1410 ft.

Winter St.,	645 ft.
Water St.,	810 ft.
Kennebec St.,	300 ft.
Morrill Ave., near Libby's,	140 ft.
High St.,	400 ft.
Drummond Ave.,	255 ft.
Front St.,	424 ft.

Total,6954 ft.

Sidewalks have been graveled and repaired and charged to street account as follows:

Temple St.,	440 ft.
College Ave.,	770 ft.
Mytle St.,	660 ft.
Oak St.,	390 ft.
High St.,	290 ft.
Ash St.,	400 ft.
Maple St.,	165 ft.
Drummond Ave.,	286 ft.

Total,3401 ft.

This work required 2623 loads of gravel.

Twenty-seven thousand, six hundred and seventy-one (27,671) feet of spruce plank were bought in 1901, and three thousand (3,000) were on hand, making thirty thousand, six hundred and seventy-one (30,671) feet. Seventy-three hundred (7300) feet of logs have been used; giving a total of thirty-seven thousand, nine hundred and seventy-one (37,971) feet of lumber used in making and repairing drive-ways, bridges and culverts.

The appropriation of \$10,000 for the year just expired would have been more than sufficient for the streets had not the large amount of damage done by the flood rendered it necessary to slightly overdraw that amount. Owing to the high water, all the bridges and culverts on Hayden brook had to be repaired, and filling hauled in Spruce, High, Oak, Ash, Kelsey Streets, Edwards Court, Brook and Main Streets, Sanger

Avenue, North Gilman Street beyond the Messalonskee, Western Avenue on Hayden brook, Western Avenue by Sylvester Witham's, the Oakland road by the Union farm, and the County road by James Parent's land. To temporarily repair these washouts cost about \$700.00 and took 320 loads of gravel. The getting of the gravel was expensive because the gravel pits were frozen hard. This work also required 10,000 feet of lumber.

Sewers.

A bad break in the sewer in Silver Place, in March, required digging to the depth of 20 feet, the ground being frozen; taking 3000 feet of lumber to box it and costing in labor and material \$310.00.

A sewer has been put in in South Main Street, running from Bridge Street north to the old Redington store 296 feet, of 8 in. pipe with ten Ys, and connecting with a newly built catch basin at the south corner of the old brick block, costing \$156.41.

A sewer has been built in Sherwin Street, running from Summer east 41 feet, of 6 in. pipe, with two Ys, costing \$13.55.

Also a sewer has been put in on Western Avenue, 623 feet, including 13 Ys, two man holes and one catch basin, running from C. W. Davis' house south of Western Avenue, across the land of Selden E. Whitcomb and Frank Williams to Western Avenue, and 99 ft. east toward Elm Street to connect with the sewer to take a part of the sewerage going through Silver Place, costing in all, \$475.00.

A sewer has been built on Silver Street, running from Western Avenue down Silver Street 175 feet, 8 in. pipe, and having six Ys, costing \$82.00.

Six catch basins have been built the past season:

- 1 at the lower end of Main St., near the old Redington block.
- 1 on Pleasant St., by W. M. Dunn's.
- 1 on Western Avenue, by Loud's.
- 1 on Temple St., by Alfred Thompson's,

1 south of Western Avenue, by C. W. Davis's.

1 on Vigue Avenue, by Lashus's.

The sewers have been flushed throughout the city and the catch basins thoroughly cleaned, some of them several times. This work has cost \$275.00.

A number of catch basins and manholes have been repaired and raised and Ys have been put in for connections, there having been none put in when the sewer was laid.

Sidewalks.

The following sidewalks have been built and repaired:

Water St., 427.6 sq. yds. concrete, at 65c	
sq. yd.,	\$277.94
Water St., 231.7 ft. curbing, at 42c ft.,	97.02

Report of City Building Committee.

The history of the efforts made for a City Building is a long one, too long to repeat here. Five years ago, when Hon. E. F. Webb was Mayor, an effort was made and work begun, foundations being built and contracts made for the building. But opposition developed against the manner of raising money for it and work was stopped.

Soon after the election of the present city government agitation began, urging that work should begin towards the erection of the building, and on May 7, 1901, an order was passed by substantial majorities in both branches of the City Council authorizing work to begin and appropriating money for the completion of the superstructure, to be raised by taxation. A building committee was appointed consisting of the Mayor, Aldermen Wardwell and Picher and Councilmen Mitchell and Decker. The committee began at once to arrange for carrying out the order.

It was the desire on the part of the committee to utilize as much as possible the work done and material which had been furnished on the former building, and the architect who made the plans for the first building was engaged to modify those plans to meet what appeared to be the wishes of the citizens.

Much care was taken in the preparation of these plans, that all the wants of the people would be served as well as possible in this building and yet bring the cost within the amount which would not be a burden to the people. We believe that when the building is completed, it will be found that these wants have been met and will meet the approval of the citizens.

Rooms for all the city officers on the first floor; vaults for the preservation of the city records; Aldermen's and Councilmen's rooms; police officers'; lockup; police court room, of sufficient size for the holding of the Superior court—here are provided. The second floor is for the audience room, and has

been so planned as to make it suitable for conventions and all public gatherings, as well as finely adapted for graduating exercises of the public schools, lectures, concerts and other entertainments.

Bids were called for early in July for the erection of the superstructure, and the contract let to Messrs. Horace Purinton & Co., of this city, and work has been pushed along rapidly since. While the work has been going along and in response to what seemed to be the wish of the citizens, it was decided to continue the work on the building to completion; especially was this felt desirable as this is the centennial year of our incorporation as a town, and this event is to be celebrated by the citizens during the summer, and to dedicate the new city building at that time would be a fitting way to crown the work of a century as a town.

On November 5, 1901, an order was passed unanimously in both branches of the city government authorizing the City Building Committee to let contracts for the full completion of the building, and to this end plans and specifications were prepared and contracts let: steam heating to Messrs. W. B. Arnold & Co., of this city; plumbing, The Carman-Thompson Co.; electric wiring to the Messalonskee Co.; and to Horace Purinton & Co., the builders of the superstructure, the inside finishing.

It is a matter of congratulation that nearly all the work done and materials furnished for this building have been by Waterville men, and to the entire satisfaction of Mr. W. B. Lane, who came here from the office of Lockwood-Greene Co., of Boston, as inspector.

In order to meet the wishes of the citizens and have the building ready for dedication at the centennial celebration, the committee are pushing the work as fast as possible and contracting for all the material and furnishings necessary to make the building ready for use as soon as possible.

The cost and expenditure so far will be found in the Auditor's report, under "New City Building," and below will be found amounts of contracts let so far, and which have been made

public from time to time as these have been awarded:

Superstructure—Horace Purinton & Co.,	\$26,910.00
Steam Heating—W. B. Arnold & Co.,	2,700.00
Plumbing—Carman & Thompson Co.,	2,048.00
Boilers—Richmond Stove Co.,	775.25
Inside Finishing—Horace Purinton & Co.,	19,481.00

The other expense, such as Inspector, Architect, decorating, and such extra work as the committee has seen fit to order, has gone in to make up the amount already paid out, and which may be required to make up the full amount when completed.

We believe that in all cases the committee have acted for the best interests of the city throughout, and that full value is received for all money paid out.
